

# Workforce Attraction

The Voluntary Workforce Attraction Contribution has allowed the Chamber to make great strides in growing two programs of work – the **Community Concierge** and Worksite Wellness initiatives – both of which the Chamber Board of Directors has identified as critical for growing and maintaining a quality workforce in North Iowa. Board members believe these programs will give members a competitive edge over neighboring regions. Thanks to the voluntary dues contributed this year, the **Community Concierge** was able to attract dozens of new families to our region and grow its services for new or prospective residents. The Worksite Wellness committee was able to offer new programs, plan another highly successful summer event, and begin planning some exciting new offerings for 2020. Thank you!
